Top 20 Uses for Task Cards

Teacher Tip: Brain research supports the connection between movement and learning. Evidence from imaging sources, anatomical studies, and clinical data shows that moderate movement enhances cognitive processing. Task cards offer an easy way to allow movement in the classroom while increasing student achievement!

1. **Independent Center Work**
2. **Memory Game – If your game doesn't come with answer cards, create them on index cards. Lay the question cards and answer cards face down to play a memory (concentration) game. Great for small groups.**
3. **Whole Group Game (SCATTER) – Give half of the students a definition card and half an answer card. Students must scatter (mingle) around the room to find their correct partner. This encourages content-rich discussions.**
4. **Use cards with basic board games or other games. Student may move game piece when question is answered correctly. (Battleship, Chutes 7 Ladders, Don't Break the Ice, etc.)**
5. **Interactive Bulletin Board – Hang question cards on bulletin board. Students record answers in their content area journals during designated transition times.**
6. **Use cards for a game of Jeopardy or similar quiz show game.**
7. **Tic Tac Toe – When a task card is answered correctly, the student may place an "X" or "O". Tape a tic-tac-toe board on the floor. Students toss bean bags when a question is answered correctly.**
8. **Create a word wall with the answer cards.**
9. **Hang task cards along a wall or set one on each desk. Students record answers moving to the next card when a designated sound or motion cues the movement. (SCOOT)**
10. **May be used repeated practice or for differentiated instruction.**

Top 20 Uses for Task Cards Cont.-

11. **Send task cards home for a purposeful homework activity.**
12. **Task cards my be used as a formative assessment to guide instruction.**
13. **Play ANSWERS UP game. Designated student reads a question card. Students record answers on small chalk board or white board. Students show answers when designated students says, "Answers up!"**
14. **Transition or Morning Activity (Bell Work) – Display one task card each day for students to record answers.**
14. **Place task cards in plastic eggs or small boxes. Students find boxes and record answers.**
15. **Use task cards as flashcards with partners or small groups.**
16. **Use as extra reinforcement for students who complete work early.**
17. **Create a scavenger hunt. Hide the question cards around the room. Give each student an answer card. They must find the correct question to match their answer.**
18. **Have students create their own task cards after completing a research project or unit study.**
19. **Be creative! Allow your students to create game ideas!**
